#HelpingPeople

WWW.DEVXCHANGE.ORG

## GLOBAL

DevXchange was founded in 2006 and we have been expanding our reach ever since. We now have projects in 18 different countries and are always looking for more opportunities.

## FLEXIBLE

DevXchange projects are volunteer lead which means you choose how you want to get involved with our projects and when its right for you.

## LOW-COST

DevXchange runs almost entirely on volunteers which allows us to keep our admin fees as low as 10%. That means that almost all of the money raised goes directly to the projects. In addition all Canadian donations are tax deductible.

## SUSTAINABLE

DevXchange ensures that all of our projects work with a local partner so that they can become self sustaining and not dependent on hand outs.

## WHO ARE WE

We facilitate the linking of Canadian volunteers with indigenous grass roots organizations and their humanitarian initiatives in developing countries. We provide management and technical support to these volunteers as well as tax-deductible receipts for their donors.

In short – it's a development exchange that helps people help people!

All Ages Welcome + No Experience Necessary

## BECOME AN AMBASSADOR

*Are you a globe trotting humanitarian? keyboard activist? passionate about helping people?*

Devxchange Ambassadors have the opportunity to support our projects in many different and rewarding ways. As a Devxchange Ambassador you will be given the chance to travel to our overseas projects or promote our cause closer to home.

## HOW TO JOIN

The first step is to let us know!  
Visit our website for more details:
